OBJECTIVE

Aspiring software developer with a strong foundation in programming and problem-solving, seeking an entry-level position to utilize my skills in coding and software development, and to contribute to the growth of a dynamic organization.

INTERNSHIP EXPERIENCE

Frontend Developer Intern

Aug 2023 – June 2024

Wisetechboard

- Developed and maintained **responsive web** applications using **front-end features** and **functionalities** using modern frameworks for **5+ projects, improving user engagement** and **site performance**.
- Utilized version control systems** like Git to manage code repositories and ensure smooth collaboration with cross-functional teams.
- Integrated REST APIs** to enhance front-end functionality and deliver dynamic content, contributing to the efficiency of multiple web applications.

Tech Stack Used: *jQuery, Ajax, JS, REST API, MySQL, Git, Bitbucket*

Frontend Developer Internship

May 2023 - July 2023

Prahan Soft Pvt.Ltd, Internship

- Developed a project using React Js with global state rendering.
- Crafted Interactive User Interface using hooks, Components in React Js.

Tech Stack Used: *React Js, Material UI, React Shards*

PROJECTS

Projects Profile: [Profile links](#)

- Recommendation Mechanism** [live link](#) May 2024
Developed a movie recommendation system using machine learning techniques, leveraging libraries such as **scikit learn** for model building, **normalization** for **data preprocessing**, **vectorization** for **feature** extraction, and **NLTK** for natural language **processing** to enhance recommendation accuracy
- Flipkart WEB Scraping** [live site](#) March 2023
Implemented a web scraping solution utilizing machine learning algorithms, **employing BeautifulSoup** for **data extraction**, **Pandas** for **data manipulation**, and NumPy for **numerical computations**, effectively gathering and **processing large datasets** from multiple web sources.
- FinTech Application** [live site](#) Jan 2024
Developed the front-end of a **FinTech application** for financial loans, ensuring a **user-friendly interface**, and seamlessly **integrated APIs** to connect with backend services, enhancing the efficiency and functionality of the loan processing system.
- Food Delivery Application** [frontend](#), [admin panel](#), [backend](#) May 2024
Built a full-stack Food Delivery Application using React.js for UI development and Node.js for backend services, creating comprehensive front-end interfaces for users and an admin panel for managing operations, resulting in a streamlined and efficient platform

SKILLS

Programming Languages: Java, Python
Web Development: *Frontend*: HTML, CSS (Bootstrap), ReactJS, Js.
***Backend*:** SQL, Spring boot (CRUD's).
Machine Learning:
Libraries & Frameworks: Pandas, NumPy, Matplotlib, Seaborn, Scikit learn, Beautiful soup.
Other Technical Skills: Problem Solving, Competitive Programming
IDEs & Tools: VS Code, Git, Bitbucket, Google Collab, Jupiter Notebook.
CS Core: Data Structures and Algorithms.

EDUCATION

JNTUK University College of Engineering Narasaraopet <i>Bachelor of Technology, Computer Science & Engineering</i>	2021 –2025 CGPA: 7.9 / 10
Narayana Junior College <i>Board of Intermediate Education Andhra Pradesh</i>	2019 - 2021 946/1000
Zilla Parishad High School <i>Board of Secondary Education Andhra Pradesh</i>	2018 - 2019 CGPA: 9.0/10

ACHIVEMENTS

- 1. Solved over **800+** [Leet Code](#) problems And
- 2. **100+** [Hacker Rank](#) challenges, demonstrating strong proficiency in **DSA** and problem-solving skills.
- 3. **3 Star** rating in [Geeks For Geeks](#).
- 4. Achieved **Gold Badges** in Python, SQL and **Bronze** in problem solving [Hacker Rank](#).
